

PERSONAL DETAILS

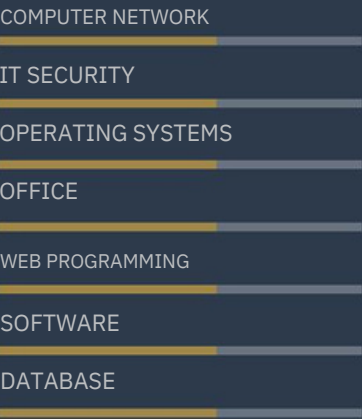

Student passionate about computer networks and currently enrolled in GOAL Networks and Telecommunications in the first year at the IUT of Elbeuf, I would like to join an IT service to start my second year in work-study program, combining theoretical courses with practice. My academic background, my professional experience and my passion for Computer Networks have given me a solid foundation in IT that I am ready to develop within a dynamic company. My goal is to actively contribute to concrete projects while developing my skills in telecommunications, networks and security.
